

Lana

Lana

This upholstery fabric Lana is part of the Textafoam Comfort Collection. A collection designed to offer softness, volume, and practicality, bringing warmth and ease to every interior.

Lana combines the rich, woolly feel of mohair with a subtle velvet sheen. The long-standing pile creates a soft and voluminous handfeel, that feels comfortable on each type of furniture. Tight fitted, buttoned or loose fitting are all suitable for this nice and soft upholstery textile.

When you look at Lana, you see an elegant two-tone effect, which is created by the cationic yarns. The palette ranges from soft neutrals to more deeper tones.

The rolls are packed with care in suspended boxes (full rolls), cutlengths/ coupons are rolled in bubblewrap, these precautions have been taken to avoid and minimize pressure marks during storage, handling and transport.

When a pressure mark does appear on the fabric or furniture, please take a velvet brush and brush against the pile. During brushing, force/ tension is allowed and after that give the fabric some time, this way the pile will go back to its original position.

Please note the pile direction of this fabric, as it requires some extra attention during upholstery. On tightly fitted models, the direction of the pile may create a subtle gliding effect, which is characteristic of this type of velvet.

Lana is a knitted velvet with a face-side of 100% cationic polyester and the lamination is DTY, silicone dyed and has been treated with a light PFAS-free (C0) easyclean finish.

These combinations make Lana durable, easy to clean, resistant to stains and machine-washable at 30 degrees Celsius.

- Sitting mirror or pressure marks can be reduced by brushing against the pile using a clean velvet brush.
- Always be careful with sharp or rough objects such as watches, buckles, or Velcro, as they may damage the fabric.
- Please note that no fluor-carbon treatment has been used for this textile, due to the production and dyeing method it has all these features.
- We recommend to wash the cover inside out and immediately place the cover back to the piece of furniture, slightly damp, after washing.

***Textafoam originals** Established in 1970, this Dutch family business brings together craftsmen in textiles and furniture design to build an unrivalled portfolio in upholstery fabrics that meets buyer's needs every time. Featuring a wide colour range, ultimate value for money and excellent reliability in the supply chain.*
