Shadow

This elegant upholstery fabric is in the Textaafoam Natura Collection. A collection that stands for luxurious and naturel fabrics.

Running and selling well for many years, Shadow has proven to be a real Textaafoam evergreen quality. Luxurious, authentic, washed, 100% naturel and brushed in a perfect way.

Woven on a cotton warp and a linen weft, dyed, and finished by a very well-known vertical integrated Italian weaving company. Shadow is suitable for all types of upholstery, beds, sofas, chairs and footstools all look amazing. Shadow is mainly used for loose fitting upholstery, but fitted and buttoned furniture also look great.

It is machine-washable at 30 degrees Celsius*, but the colour may bleed a bit. When a stain appears, first remove it with a spoon, or another blunt object. After that, take a cotton towel, make it wet with lukewarm water, first wring it out and after that put it directly over the stain. Let the towel lay so it can absorb the stain (24-48 hours). Never rub over the fabric or stain, because then you will rub out the dye stuff and white/ light spots will appear, especially on the darker colours.

Never change a winning team, so therefor we also did not change anything, we just added beautiful new, modern and soft new tones for Shadow. As our product development team noticed that this article is back in trend and with this new extended colourline we expect a big growth in meters again.

- Always be careful with sharp or rough objects such as watches, buckles or Velcro, as they may damage the fabric.

- Please consult the washing instructions of your furniture or covers before cleaning.

- Please note this article has a higher shrinkage than the recommended maximum 3%.

- We recommend to wash the cover inside out and immediately place the cover back to the piece of furniture, slightly damp, after washing.

Textaafoam originals *Established in 1970, this Dutch family business brings together craftsmen in textiles and furniture design to build an unrivalled portfolio in upholstery fabrics that meets buyer's needs every time. Featuring a wide colour range, ultimate value for money and excellent reliability in the supply chain.*
