When a pressure mark appears, simply brush against the pile with force/ tension, please give it some time, this way the pile will go back to its original position.

- Please note that no fluor-carbon treatment has been used for this quality, due to the production and dyeing method it is automatically damp & dirt prevented, stain resistant and easy to clean & maintain.

- We recommend to wash the cover inside out and immediately place the cover back to the piece of furniture, slightly damp, after washing.
